

Memo No. 2018-028
Date: 17-Jul-2018
Memo To: Clients
Re: Revisions

B-2 Microglobulin, Plasma/Serum *** Revision

The test listing has been revised to include the correct reference value and indicate that hemolysis and lipemia interfere (fasting specimen preferred).

Adalimumab & Antibodies *** Revision

The web listing for this test has been revised to reflect the current test service offered (at Mayo Clinic Laboratories). Please note change in listed reference values and the extended stability period.

Coenzyme Q10 Total, Serum *** New Test

A new test is available, performed at Quest Diagnostics. Please refer to the website for details. Note that orders for the plasma test available via Mayo Clinic Laboratories (which includes Coenzyme Q10 Reduced and Total) must specify that Reduced Coenzyme Q10 is being ordered.

Interleukin 2 Receptor *** Revision

The method has been revised with a change in specimen requirements, reference values and reporting units. Please refer to the website for details.

LDH Isoenzymes *** Revision

Due to limited stability, an ICL date -of-receipt restriction (Mon-Wed within 4 days of collection) has been added to the specimen submission instructions. Please refer to website.

Toluene, Whole Blood (Occupational Exposure) *** New Test

Please refer to website for new test information.

If you have further questions, please contact Client Care at (416) 422-3000 Ext. 300 or info@ICLabs.ca or you may contact me directly.
