

Memo No. 2019-005
Date: 30-Jan-2019
Memo To: Clients
Re: **Test Delay: Fructosamine & Trace Metals at Laboratory Reference Centre**

Fructosamine, Serum

Fructosamine testing has been temporarily delayed due to a manufacturer reagent issue. We anticipate a resumption of service within the next five to ten days. Clients will be informed if the test must be cancelled due to instability of the specimen.

*** If you have submitted a specimen that you deem urgent, please contact ICL Client Care.

Stability: Ambient: 3 days Refrigerated: 2 weeks Frozen: 2 months

ICL HL7 Setup Codes

(REF Code)	(RES Codes)	
Order Code: FRUCAM	Result Code: 4210 FRUCTOSAMINE	Units: umol/L

Trace Metals, Testing at Laboratory Reference Centre, Hamilton, ON

*(Please note that this delay notification is **not applicable** to analysis of trace metals being performed at London Health Sciences Centre, London.)*

Aluminum (plasma, urine, whole blood) testing has been impaired due to an issue with the analyzers. Resumption of aluminum testing is expected within five to seven business days.

Due to the number of outstanding Aluminum test orders, when service resumes other trace metal analytes may have their TAT affected. Additional runs will mitigate delays.

*** If you have submitted a specimen(s) that you deem urgent, please contact ICL Client Care to request analysis available immediately at an alternate lab (London Health Sciences Centre, London, ON).

ICL HL7 Setup Codes

(REF Code)	(RES Codes)	
Order Code: HALU P	Result Code: 60500 ALUMINUM	Units: nmol/L
Order Code: HALU WB	Result Code: 60512 ALUMINUM WHOLE BLOOD	Units: nmol/L
Order Code: HALURU	Result Code: 60008 URINE ALUMINUM	Units: umol/L
Order Code: HALU U	Result Code: 34590 COLLECTION DATE	Units: None
	Result Code: 34592 TIMED URINE VOLUME	Units: L
	Result Code: 60008 URINE ALUMINUM	Units: umol/L
	Result Code: 60016 24h URINE ALUMINUM	Units: umol/d
