

Memo No. 2019-010
Date: 14-Mar-2019
Memo To: Clients
Re: Various

Antidiuretic Hormone (ADH), Plasma - Mayo

Quest Diagnostics abruptly cancelled their ADH service on March 4, 2019, the day that ICL was going to begin offering it as a routine service.

As a result, ICL now refers ADH to Mayo Clinical Laboratories. Please note that Mayo names the test Arginine Vasopressin (AVP), an alias for Antidiuretic Hormone (ADH). ICL will accept either name on client requisitions but will list and report as Arginine Vasopressin.

Contact ICL Client Care for the new test price and refer to the ICL website for test details.

HL7

Order Code: AVP Result Code: 62904 Arginine Vasopressin, P Units: pg/mL

Aryl Sulfatase A, Leukocyte

Specimen submission requirements have been revised to ensure that the specimen is delivered on time and is not cancelled due to restricted stability.

You must contact ICL Client Care at (416) 422-3000 ext. 300 or info@ICLabs.ca prior to collection to ensure that specimen is processed immediately upon receipt at ICL; failure to contact ICL might result in delayed specimen processing and test cancellation. Maintain at ambient temperature. Sample must be analysed within 12 h of collection. The sample must be delivered to ICL before 1200 h (noon) on the day of collection. Urine sulfatides may be recommended as an alternate screen.

HL7

Order Code: ARSULF Result Code: 2645 Aryl sulfatase A-WBC Units: nmol/h/mg

Biotinidase, Serum

The website has been updated to include Biotinidase, Serum, performed at Mayo Clinic Laboratories. This is a new test and test site. Please refer to the website for details.

HL7

Order Code: BIOTS Result Code: 62900 Biotinidase, S Units: U/L
62901 Interpretation
62902 Reviewed by
