

Memo No. 2019-015
Date: 09-May-2019
Memo To: Clients
Re: Revisions

Antidiuretic Hormone (ADH)/Arginine Vasopressin (AVP)

This test, known either as ADH or AVP, is no longer being performed at any ICL supplier lab. The labs that previously offered the service have replaced the test with plasma Copeptin, a test considered superior for diagnostic purposes.

Refer to the website for ICL's Copeptin test details.

62-Glycoprotein 1 Antibodies, Serum

Please note the following specimen handling revision:

- You should submit a single specimen aliquot; you do not have to split and send three separate aliquots.
 - Recommended submission volume is 1 mL; minimum 0.5 mL
-

Growth Hormone Releasing Hormone,

Changes to method, specimen type, stability and TAT effective immediately. Specimens referred to Inter-Science Institute through Mayo.
